## **THINQ Compliance Announces Strategic Partnership With SterlingTech Software**

Essex, CT—THINQ Compliance, Ltd., a premier provider of enterprise-grade compliance software and consulting services, announced today that it has entered into a strategic partnership with SterlingTech Software, Inc.

THINQ Compliance Manager, THINQ's flagship offering, is a turnkey software solution that automates crucial compliance, risk-mitigation and validation tasks and provides the detailed reports necessary to ensure compliance with ever-changing FDA/EU, Sarbanes-Oxley and other governmental requirements.

THINQ Compliance Manager empowers organizations to create and maintain a real-time database of business-critical compliance content that can be generated on demand, greatly reducing enterprise-wide risk as well as total cost of ownership.

"Our strategic partnership with SterlingTech Software allows us to offer our enterprise clients better, more cost-effective compliance and risk-management solutions," said Graham Tinsley, THINQ's director of business relations. "SterlingTech brings market-proven software development, testing and troubleshooting expertise to the table—and its quality system is recognized as among the very best in the life sciences field."

"THINQ Compliance Manager is a powerful, market-leading enterprise solution," added Dan Sterling, SterlingTech's president. "The synergy between our companies makes sense on every level. We're excited to help THINQ build on its world-class compliance offerings."
